MIDI GUITAR 3 by Jam Origin (3.0.63) BETA Testing version.

Same audio interface for input and output

Input Device	Output Device
ASIO PreSonus FireStudio Quantum ASIO driver Revelator ASIO	AudioBox ASIO Driver ioStation ASIO Driver ASIO PreSonus FireStudio
No Input! Channel 1 (default)	No Output! Channel 1+2 (default)
	64 buffer size 128 buffer size (recommended) 256 buffer size (slower)

Usually you would want to use the same audio interface for input and output, but it's possible to run two audio interfaces asynchronously by dedicating an audio interface exclusively for guitar inputs.
